INSTALLATION GUIDE
How to Use Pine Mini Chips™

- Ensure the area to be mulched is entirely free from both annual and perennial weeds
- Lay Melcourt Mini Chips evenly onto freshly cultivated moist soil, after planting has been completed
- The mulch should be laid at between 50 and 100mm depths, allowing at least 5% of settlement
- For greatest longevity, do not disturb once applied
- When used in tubs, pots and window boxes, spread to a minimum depth of 50mm, onto moist soil or compost
- As the mulch will remain loose, ensure that there is a sufficient depth rim to contain the bark.
