Technical Data Sheet

RAINBOW SUPERSOFT TREE TIE

Tree & Hedge Planting

Rainbow Supersoft Tree Ties offer gentle yet reliable support for newly planted trees, protecting trunks from damage while allowing natural movement. Made from flexible, weather-resistant material, these black ties come in multiple sizes to suit a variety of tree planting projects, from gardens to large-scale landscaping.

Available in a range of sizes from 30cm to 60cm, these black tree ties blend discreetly into any landscape setting, making them ideal for everything from domestic gardens to large-scale urban planting, forestry, and commercial landscaping schemes.

Applications

- Domestic and commercial landscaping
- Urban street tree planting
- Forestry and woodland establishment
- Nursery tree care and transport
- Estate and parkland maintenance

Information

Material: High-quality, flexible, weather-resistant material

Colour: Black

Applications: Secures trees to stakes for support during growth

Installation: Wrap around tree and stake, secure and adjust as needed

Weather Resistance: Minimal maintenance, built for long-term outdoor durability
